PROJECTS

Madhya Pradesh Tourism Website

- Developed a full-stack tourism platform for Madhya Pradesh using Node.js, Express, EJS, and SQLite.
- Integrated destination discovery, searchable travel blogs, media streaming, and trip-planning features.
- Designed and connected dynamic database-driven pages to efficiently manage and display tourism-related content.

Cow Owner Identification System

- Built a web-based system using Python, Django, SQLite, and Bootstrap for managing cow and owner records.
- Developed functionalities to identify cow owners and maintain cattle information in a structured manner.
- Designed a responsive interface and connected backend database services for seamless data management.

ACHIEVEMENTS

- Secured **AIR 2034** in TCS CodeVita Season 13 Round 2.
- Secured **Global Rank 237** in CodeChef Starters 220 (Rated) among global participants.
- Achieved maximum rating of **1477** on CodeChef.
- Solved over **500+** problems across CodeChef and LeetCode.

CERTIFICATIONS

- Microsoft Azure AZ-900 Cloud Fundamentals Certified.
